

CHLORINE GRANULES

DESCRIPTION

Pool Pride Chlorine Granules is a white free flowing corrosive granule/tablet with strong chlorine odour. Pool Pride Chlorine Granules contains an active ingredient of 65% chlorine. Pool Pride Chlorine Granules needs to be stored in a cool dry area and used as soon as possible.

USES

- Pool Chlorination
- Algae Control - inhibits and prevents growth
- Footbaths used in the control of athlete's foot.
- General sanitation of shower rooms, toilets, and floors.
- Pool Cleaning - removing algae, bacteria, and spores in empty pool.
- Water Supply Systems - to disinfect service water and control algae.
- Sewage Treatment - sanitary disposal and odour control, BOD reduction
- Food Industries - bacterial control and disinfecting
- Bleaching cotton or linen
- Household and personal use - bleaching crockery and cleaning food preparation surfaces.

DIRECTIONS FOR USE

The amount of chlorine product required to maintain the correct level of 1.0 - 1.5ppm will vary depending on bather load and other conditions. With practical daily experience you will get to know the appropriate level for your pool. Here is a guide for Pool Pride Chlorine Granules.

Daily Maintenance:

80g of Pool Pride Chlorine Granules per day per 10,000L of pool water.

Weekly Maintenance as required:

Shock dose with Pool Pride Chlorine Granules at x 2 the daily dose rate approximately 160g per 10,000L of pool water.

NOTE

Shock dosing must only be done using Pool Pride Chlorine Granules. Before swimming wait for the chlorine level to drop to 1.5ppm. The chlorine level should be tested daily using a test kit.

PACK SIZES

4x2 Kg 2x4 Kg 10 Kg

Refer to Material Safety Data Sheet for handling and first aid instructions.
